

WARNING:

SWIMMING IN THESE WATERS MAY BE HAZARDOUS TO YOUR HEALTH

BCRAGD strongly advises people at this time to avoid recreational contact, including swimming, in the Medina and Sabinal Rivers and their tributaries.

Low to no flows due to drought conditions, combined with sustained high temperatures, has created a potentially hazardous situation for water recreation. These conditions allow for potentially harmful organisms to be present in the water.

Effective August 9, 2018

Bandera County 
River Authority & Groundwater District
Protecting & Preserving our Natural Resources

Any questions or concerns can be directed to the BCRAGD Office. Office hours are 7:30 am - 5:00 pm Monday - Thursday and 7:30 am - 4:30 pm on Friday.
